Project Title: Harry Potter Books Website

I want to build this website as a single page dynamic website. I loved reading Harry Potter when I was growing up, so I want to create a site where someone can view all books and a quick summary of each. The focus will be to keep it simple and not overcomplicate, to ensure I can make it responsive. Ultimately, if I get time, I want to make a specific button for each book.

- **The Sorcerer's Stone**
- **The Chamber of Secrets**
- **The Prisoner of Azkaban**
- **The Goblet of Fire**
- **The Order of the Phoenix**
- **The Half-Blood Prince**
- **The Deathly Hallows**
- **Sources** – most of the sources will come from Wikipedia, and I will be using the original Harry Potter book cover art as the images for each book
